# Product Information

## Sculpt Your V-Line with Lipo Lab

Product Name	Packing Unit	Capacity	Expiration date	Origin
Lipo Lab V-Line	5 vials / pack	10 mL / vial	3 years	100% Made in Korea

Lipo Lab V-Line is a non-surgical solution designed to refine facial contours by targeting localized fat deposits. This lipolytic formula helps create a well-defined jawline, naturally enhancing your facial aesthetics.

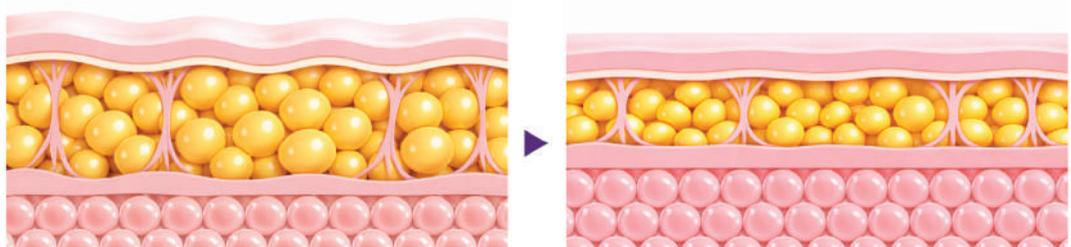

*Sculpt Your V-Line*

# The Perfect Facial Sculptor

## Multi-Action Facial Contouring Solution

### How It Works

Lipo Lab V-Line helps break down facial fat while enhancing blood circulation and lymphatic drainage, supporting the removal of fat and metabolic waste.

**Carnitine**

Fat Metabolism

**Horse Chestnut Extract**

Lymphatic Drainage

**Walnut Seed Extract**

Blood Circulation

**Thermus Ferment**

Skin Protection

### Gentle Yet Effective

A mild formulation suitable for facial application, designed for minimal discomfort and downtime.

# Proven Safety

## Nature Ingredients

### Nature-Derived Ingredients

Combines botanical extracts and biotech ferment for contouring with high safety and tolerability.

### Safe & Free from Harmful Additives

Steroid and pentoxifylline-free to prevent side effects such as thinning and irritation.

## ISO-Certified Manufacturing Facility

Manufactured in compliance with international standards throughout the entire process, from raw material management to aseptic filling.

## Authenticity

### To ensure genuine products:
